Class Outline:

Description:

Welcome to CyberSAFE (Securing Assets For End-users) Extended Edition. Regardless of your computer experience, this class will help you become more aware of technology-related risks and what you can do to protect yourself and your organization from them. This course will help you to understand security compliance considerations, social engineering, malware, and various other data security-related concepts. In this course, you will explore the hazards and pitfalls and learn how to use technology safely and securely.

Course Outline:

Unit 1: Identifying the Need for Security

Topic A: Identify Security Compliance Requirements

Topic B: Recognize Social Engineering

Unit 2: Securing Devices

Topic A: Maintain Physical Security of Devices

Topic B: Use Passwords for Security

Topic C: Protect Your Data

Topic D: Identify and Mitigate Malware

Topic E: Use Wireless Devices Securely

Unit 3: Using the Internet Securely

Topic A: Browse the Web Safely

Topic B: Use Email Securely

Topic C: Use Social Networking Securely

Topic D: Use Cloud Services Securely
